

Membership fees 2010

We ensure that membership fees are simple, straightforward and have no hidden extras.

Our fees are divided down into four simple parts.

1 Comply Direct membership fee

15% discount on ongoing Comply Direct annual WEEE and packaging membership fees for producers registering both these obligations with Comply Direct in any given compliance period.

| | |
|--|--------------|
| Turnover £2m – £5m | £300 + VAT |
| Turnover £2m – £5m opting for the small producer's allocation method | £200 + VAT |
| Turnover > £5m and net obligation < 5,000 tonnes | £450 + VAT |
| Turnover > £5m and net obligation > 5,000 tonnes | £1,000 + VAT |
| Main activity of selling* | £100 + VAT |
| Small producer main activity selling* | £25 + VAT |

* This is in addition to any of the above if the main activity is selling.

2 Packaging recovery notes

This is the charge we levy for the purchase of packaging waste recovery notes (PRNs) and packaging export recovery notes (PERNs) in respect of a member's recovery and recycling obligations. PRN/PERN prices are subject to supply and demand and typically vary each month dependant upon market demand and supply.

Comply Direct will provide an indication of the expected PRN/PERN prices for each forthcoming obligation year. At the end of the year we reconcile to establish the actual average price and credit the difference to members.
