

## Recommended High Quality Carbon Offset Projects

### UK Tree Planting + Protecting the Amazon

**Type:** Tree Planting and Reducing Deforestation (REDD+)

**Country:** UK + Brazilian Amazon

**Reference:** CFP1

This project provides an opportunity to plant trees in the UK whilst also helping to protect the Amazon Rainforest – the largest remaining rainforest in the world. The Amazon is known for its amazing biodiversity; containing 10% of all species, including many endangered species.

For each tCO<sub>2</sub>e offset, one tree is planted in the UK in the region of your choice and an additional tCO<sub>2</sub>e is offset through the Brazilian Amazon Verified Carbon Standard (VCS) Reduced Emissions from Deforestation and Degradation (REDD) project to guarantee the emission reductions.

In the UK, the majority of trees are planted in school grounds, bringing further educational and CSR benefits.
