

Comply Direct exists to deliver commercial and environmental benefits to all its partners and is committed to continuous improvement in all areas of our business, including our management systems, as per our company mission statement –

“Comply Direct delivers environmental and commercial benefits inspired by always finding a better way.”

Comply Direct recognises the importance of environmental protection and this policy applies to all activities undertaken by the company. Comply Direct adopt a lifecycle approach to reducing the environmental impact of our services, working with key suppliers to develop environmental best practice.

The company maintains an Environmental Management system which meets the requirements of ISO 14001:2015. Commitments made by the company include compliance with all obligations including our legal requirements and expectations of interested parties.

Comply Direct aim to demonstrate leadership by improving our own environmental performance and show commitment to this through being a ‘Pledge Net Zero’ and ‘Race to Zero’ signatory and the environmental objectives that we have established in association with this. Including reducing our emissions to reach net zero by 2041. We regularly review the environmental impact of our activities and services and sustain a programme of continual improvement in environmental performance.

Comply Direct is committed to the protection of the environment, including pollution prevention and sustainable resource use and will take all necessary steps to adhere to this. We involve employees in our environmental programme and provide necessary training to enable them to discharge their responsibilities fully.

This policy is publicly available to all interested parties and has been communicated throughout the Company and to all new Comply Direct suppliers.
